

#### DOUBLE MASTER'S DEGREE PROGRAMME in MATHEMATICAL ANALYSIS AND MODELLING between

# University of Augsburg, University of Naples Federico II, University of Rouen, University of Sevilla, Tomsk State University.

This Double Degree regards the following diplomas:

- the Master's Degree of the University of Augsburg "Mathematical Analysis and Modelling",
- the Master's Degree of the University of Napoli Federico II "Mathematical Engineering",
- the Master's Degree of the University of Napoli Federico II "Mathematics",
- the Master's Diploma of the University of Rouen "Mathématiques et applications", parcours "Mathematical Analysis and Modelling" (MAM),
- the Master's Diploma of the University of Sevilla "Máster Universitario en Matemáticas" (Universitary Master in Mathematics),
- the Master's Diploma of the Tomsk State University "Mathematics", program "Mathematical Analysis and Modelling" (MAM).

The Agreement concerns the students of one of the partner universities enrolled in one of the Master's programs listed above, who will follow the corresponding Master's program at one of the other universities.

The students, who will pass the examinations, will be awarded two Master's diplomas, one at the home university and the other at the host university.

## **Course of study**

During the first year of the Master's program, students will study at their home university.

Students will carry on their studies according to the following schedule: the third or the third and fourth semesters will be studied at the host university.

The learning program at the host university during the mobility must be approved by the Steering Committee members of both home and host universities, and take into account the wishes of the student.

The language of instruction will be English as soon as necessary. It may be the local language if it is commonly understood by all students.

The partner universities undertake to inform and support the first-year Master, Bachelor and Engineering students about the conditions of the Double Degree Agreement in an appropriate way.

## **Examination and assessment**

Students must comply with the training and examination procedures existing at the home and host university.

The following rules apply:

- A student should have obtained a minimum of 45 ECTS at the home university to be accepted at the host university.

- In order to obtain a double diploma, a student must obtain 120 ECTS, with a minimum of 60 ECTS obtained at the home university, and a minimum of 15 ECTS obtained at the host university (in addition to 30 ECTS of the master thesis).

#### Master's thesis

For the Master's thesis within the Double Master's Degree Programme, each student has two supervisors, one from the home university and the other one from the host university. The Master's thesis is written and is defended in English.

The Master's thesis defence takes place at the home or host university, after positive reports of two referees, one from the home and the other from the host university. The thesis defence is held according to the rules of the partner university where it takes place. The supervisor and, if requested, other members of the other university are invited to attend the defence, possibly by videoconference.
